Course evaluation

Thank you for giving us your honest feedback! We ask for specific, focused, and respectful feedback.

The results from the evaluation are used to improve the course and they will be discussed in the Programme Council for the PhD Programme.

Learning outcome

To what extent...

Svar	Very large	Large	Neither large nor small	Small	Very small	Diagram
have you gotten knowledge about general ethical problems in research?	6	5	0	0	0	
have you been more aware of ethical aspects of your own research?	3	4	4	0	0	
was the course well- organised?	2	7	2	0	0	
was the lectures informative?	2	7	2	0	0	
was the group exercises useful?	3	8	0	0	0

Feel free to elaborate.

It was good to discuss ethical challenge within my research project with people from other disciplines. Especially I could think upon something that I usually take for granted (e.g. ethical challenge regarding using placebo). Also group discussion for preparing a presentation was also very informative.

To what extent...

Svar	Very large	Large	Neither large nor small	Small	Very small	Diagram
was the mandatory preparation useful (uploading two or three questions relevant to your research project in Canvas) and the following discussion in groups?	2	9	0	0	0

Feel free to elaborate.

It would be great to get feedback also

Examination

To what extent was the examination (group presentation) capable of testing the learning outcomes?

Antall svar: 11

Svar	Antall	% av svar	
Very small	0	0%	0%
Small	0	0%	0%
Neither large nor small	2	18.2%	18.2%
Large	8	72.7%	72.7%
Very large	1	9.1%	9.1%

Please elaborate, or give us advice on the examination form.

Maybe not so easy to present each students contribution, but worked fine

Curriculum

How did you find the amount and difficulty level of the curriculum?

Do you have any comments regarding the curriculum?

How do you rate your own participation in the course from 1 (poor) to 10 (excellent)?

What could you have done differently?

- Maybe ask more questions.
- Started reading literature earlier
- Read more in advance

D	Do you have general comments on the course or specific proposals for improvement?						
•	It would be beneficial to have more open debate ethical discussions within the specific PhD programs. For instance, one of the most useful sessisons was the second day where two pyschology reserachers dissagree about the validity and ethics of general intelligence tests IQ tests. However it was cut short. Thus, it would be useful to have gorup discussions/debates within the respective academic communities to further challange our own assumptions and belief.s						

Liked the course very much!

Thak you for your feedback!
