AUD. 1, EILERT SUNDTS HUS/ VIA ZOOM

OSLO NUCLEAR FORUM

Russian Nuclear Weapons and European Security

SPEAKERS: Dr. Anya Fink, Center for Naval Analyses and Dr. Olga Oliker, International Crisis Group

In recent years, NATO states have become increasingly concerned about Russian nuclear weapons and how they may be used in a potential conflict. What is Russian nuclear strategy in peacetime and wartime, and how do Russian nuclear weapons affect European security?

The Oslo Nuclear Project is proud to host two leading international experts on Russian nuclear weapons policy and strategy to discuss how Russia's nuclear weapons affect European security. Their discussion will be moderated by Dr. Kristin Ven Bruusgaard of the Oslo Nuclear Project.
