

THE

1995 Norwegian Rocket Incident

A nuclear crisis simulation

Document Overview

The downloadable package contains documents needed to run the simulation. Some of these are guidelines for the instructor, some are background documents to be given to the participants, and some are optional props. Following is an explanation of the documents in the package:

Preparation and Logistics Materials

Instructors' Guide

Guidelines to take the instructor through the simulation.

Roles and Participation

Sheet 1 illustrates which roles to include based on the group size. Sheet 2 explains the various roles.

Taskers

Interjections the instructor will make throughout the simulation.

Policy Memo Template

Template document to be distributed to the participants prior to Stage 1 in a pre-simulation meeting.

Country Cards + Press Cards

Documents (2) with delegation and press ID cards.

Copyright Information

Document with the appropriate copyright information.

The Norwegian Rocket Incident

Presentation for the plenary introduction to go through the rules, learning outcomes, and introduce the Heads of State.

Participant and Head of State Materials

Global Participant Handbook

For distribution to all participants *not* on the press delegation.

Head of State Handbooks

Handbooks tailored to all of the delegations' Heads of State.

Press Participant Handbook

For distribution to participants in the press delegation.
