

<b>Name</b>	<b>Title of poster</b>	<b>Section</b>
Alejandro Blenkmann and Anaïs Llorens	<i>Intracranial recordings for the study of cognitive processes</i>	Cognitive and clinical neuro
Alexander Garnås	<i>P-hacking and Outliers</i>	MAKS
Alf Børre Kanten	<i>A magnitude effect in judgments of subjective closeness</i>	MAKS
Anja Vaskinn	<i>Theory of mind in females with schizophrenia compared to females with borderline personality disorder</i>	Clinical
Anne Cecilie Bråthen	<i>Memory training and the brain's episodic memory network</i>	LCBC
Anne-Kristin Solbakk	<i>ERP indices of reactive and proactive attentional control in adult ADHD</i>	Cognitive and clinical neuro
Bettina Nielsen	<i>Implementation strategies used for an attachment-based intervention ('Circle of Security') in health services: An implementation protocol</i>	Clinical
Brage Kraft	<i>Metacognitions and Executive Control</i>	Cognitive and clinical neuro
Carolien Konijnenberg	<i>Cognitive Development of Children Prenatally Exposed to Methadone or Buprenorphine</i>	HUP
Cecilie Skaftnes	<i>Mapping the influence of gaze position on pupil size measurements</i>	Cognitive and clinical neuro
Claire Prendergast	<i>Differentiating between needs for acceptance and belonging using differential forms of social exclusion</i>	MAKS
Claudia Nyberg	<i>Post-stroke brain plasticity: Investigating the effect of computerized cognitive training with magnetic resonance imaging (MRI)</i>	LCBC
Didac Vidal Piñeiro	<i>Neural correlates of durable memories across the adult lifespan.</i>	LCBC
Eivind Ystrøm	<i>Intergenerational Transmission of Common Mental Disorders</i>	HUP
Eivor Fredriksen	<i>Patterns of Pregnancy and Postpartum Depressive Symptoms</i>	Clinical
Erik Løhre	<i>Revised forecasts: The bolder, the better</i>	MAKS
Felix Anker Klein	<i>Development and Dynamics in work environments</i>	MAKS
Hang Liu	<i>Face recognition research: insights from virtual reality and pupillometry</i>	MAKS
Ida Tidemann	<i>Infants' observations of social interaction: Decomposing the face-to-face effect</i>	HUP
Inge K. Amlien	<i>Eating Santa Claus and other improbable scenarios: Levels-of-Processing affects hippocampal-cortical connectivity</i>	LCBC
Ingrid Funderud and Maja Foldal	<i>Front Neurolab</i>	Cognitive and clinical neuro
James Roe	<i>Testing hemispheric asymmetries of source memory</i>	LCBC
Janis Zickfeld	<i>Continuously moving: The time course of being moved with closeness, tears, goosebumps and warmth</i>	MAKS

Jens Marius Halvorsen	<i>Genetic associations with TVA attentional parameters</i>	Cognitive and clinical neuro
Johanna Katarina Blomster	<i>An emotional route to decreasing out-group dehumanization</i>	MAKS
Karine Viana	<i>Does ToM matter for children's interaction in a problem-solving task?</i>	HUP
Knut Øverbye	<i>Electrophysiological and cortical structure correlates of visual attention processing in development</i>	LCBC
Kristianne Ovenstad	<i>The Therapeutic Alliance in Trauma-Focused CBT - Youth Disengagement Behaviour and Therapist Attending to Trauma</i>	Clinical
Kristina Miljeteig	<i>How can we use smartphone applications to improve psychological research?</i>	HUP
Liisa Raud	<i>Cognitive control modulates EEG and EMG of selective inhibition</i>	Cognitive and clinical neuro
Line Stänicke	<i>Adolescents subjective experience of self-harm</i>	Clinical
Linn Norbom	<i>Grey/white matter contrast and associations with clinical risk of psychosis in youth</i>	Cognitive and clinical neuro
Luigi Angelo Maglanoc	<i>Brain Networks in depression and relapse</i>	Cognitive and clinical neuro
Maria Stavrinou	<i>Can reward alter spatial priority maps? A concurrent EEG and pupillometry study.</i>	Cognitive and clinical neuro
Marit Lobben	<i>Precision grip and whole hand grasp nominal classifiers in Japanese: An fMRI study.</i>	Cognitive and clinical neuro
Marit Råbu	<i>Disseminating Research and creating art. Theatre built on Research interviews</i>	Clinical
Markus Sneve	<i>"Hotspots" in primate brain evolution and their role in information flow across the human cortex</i>	LCBC
Nantje Fischer	<i>Sexual activity and sexual satisfaction in older European adults</i>	HUP
Nikolai Haahjem Eftedal	<i>Selective support for arguments</i>	MAKS
Nora Sveaass	<i>Transitional justice in Peru</i>	Clinical
Ragnhild Bø	<i>Are executive functions and decision-making predictive of future binge drinking?</i>	Cognitive and clinical neuro
Rune Flaaten Bjørk	<i>Tuning in to Kids - an effectiveness trial</i>	HUP
Samira Aminihajibashi	<i>"The role of effort in varieties of attention"?</i>	Cognitive and clinical neuro
Sidsel Schaller	<i>Emotional climate and sexual attitudes learned and internalized in childhood: Possible impact on sexuality in older age.</i>	HUP
Silje Bårdstu	<i>From Difficult to Disagreeable: Development of Agreeableness from Preschool to Adolescence</i>	HUP
Susie Fu	<i>Cognition predicts long-term social and role functioning in first-episode schizophrenia</i>	Clinical
Thomas Haarklau Kleppesø	<i>What is the genetic structure of social dominance?</i>	HUP
Trine Rygvold Waage	<i>Non-invasive human LTP-like synaptic plasticity - examining robustness, functional significance and clinical utility of a novel biomarker.</i>	Cognitive and clinical neuro

Verónica Expósito	<i>Neurophysiological correlates of proactive and reactive control in healthy adults</i>	Cognitive and clinical neuro
Vidar Ulset	<i>Time spent outdoors during preschool: Links with children's behavioral development</i>	HUP
Ylva Østby	<i>A new dive into context-dependent memory: 41 years later</i>	Cognitive and clinical neuro
Yngvild Bjartveit Haukeland	<i>Emotional communication between healthy siblings and parents of children with chronic disorders</i>	Clinical
