

from: Prof. Arnd Schneider, emneansvarlig 2022 (and was 2020)

Changes to ANTH4020:

It is proposed to have the following exam elements (which replace the 2021 elements):

- A final submission of 3500 words proposal

And as obligatory activity

- 2 - page draft proposal
- 6 - page draft proposal with powerpoint presentation

Both obligatory activities have to be passed in order to take the exam.

Rationale:

The principal aim of this course is develop a sound research proposal of full length (3500 words) to be submitted at the end of this course.

The best way to achieve this with students, concurrent with teaching / lecturing all the content elements /topics, is to go through several rounds of compulsory drafts, i.e. 2page and 6 page draft on which they receive feedback from the lecturer - the last coupled with a powerpoint presentation to the seminar class to receive additionalencouraging feedback from the seminar group.

I taught this format very successfully in 2020 where practically all students enrolled passed the course.

The monographs (a list Karin, Maka and I will agree upon) will be used across the courses, and in ANTH4020 in an in-class excercise which can also have a group nature (but is not an exam).

PLEASE NOTE THAT THIS REPLACES THE CURRENT 2021 VERSION, AND THERE WILL BE NO GROUP PRESENTATION ON THE MONOGRAPHS:

The emphasis in this course is on the development of the research proposal.
