

V-SAK 9/26: Endring av eksamensform i SOSANT2570

Saken legges frem for Programrådet:

- ☒ Til behandling
- ☐ Til orientering
- ☐ Til diskusjon
- ☐ Til uttalelse

Forslag til vedtak: Programrådet godkjenner endringen av eksamensform i SOSANT2570.

Forslagsstiller: Emneansvarlig Alessandro Rippa

Bakgrunn

Undervisningsledelsen ved SAI ba nylig emneansvarlige for emner med andre eksamensformer enn skoleeksamen om forslag til eksamener som begrenser mulighetene for å generere eksamensbesvarelser ved hjelp av KI.

SOSANT2570 – Anthropology of Infrastructure har i dag 4-dagers hjemmeeksamen.

Emneansvarlig foreslår å endre eksamensform til en kort semesteroppgave og muntlig eksamen:

The proposed change would replace the take-home exam with a combination of one written assignment and oral examination. The written assignment will be a short (1500 words) multi-modal essay, which students will develop throughout the semester in conversation with the lecturer(s). In the text they will have to engage with at least three key readings from the course syllabus, and feature at least three non-textual components (images, videos, drawings, soundbites, etc.). The essay will centre on one infrastructure of their choosing, which they will have to analyse in an anthropological perspective. The use of multi-modal material, which will be explained in class,

UNIVERSITETET I OSLO

serves the purpose of maintaining a connection with the material component of infrastructures, rather than treating those as abstract entities. This assignment will be mandatory, and evaluated on a pass/fail basis (as it will not be anonymous, it cannot be graded). The exam itself will be an oral conversation, which will ensure that the student has engaged with the material cited in the written assignment, and can frame their contribution within broader anthropological frameworks introduced in the course. The grade will reflect this. If our resources do not allow for an oral examination, one possibility would be to ask students to submit a longer multi-modal essay (2500 / 3000 words), and assess the course on a pass/fail basis.

Nåværende eksamensform

Examination

Students are graded on the basis of a 4-day take-home exam. The exam paper must consist of 3500 words (+/- 10%) including cover page and foot- or endnotes.

Examination support material

All exam support materials are allowed during this exam. Generating all or parts of the exam answer using AI tools such as Chat GPT or similar is not allowed. [Må endres til ny standardformulering ved SV.]

Language of examination

The examination text is given in English, and you submit your response in English.

Grading scale

Grades are awarded on a scale from A to F, where A is the best grade and F is a fail. Read more about the grading system.

Forslag til ny eksamensform

UNIVERSITETET I OSLO

Examination

Multi-modal essay of 1500 words analysing an infrastructure of your choosing in an anthropological perspective. The essay must engage with at least three key readings from the course syllabus, and feature at least three non-textual components (images, videos, drawings, soundbites, etc.).

Examination support material

All support material is allowed. When using AI, you must explain and be transparent about its use: read more about the guidelines for AI and exams at [How to use AI as a student - University of Oslo](#)

Language of examination

The examination text is given in English. You may submit your response in English, Norwegian, Swedish, or Danish.

Grading scale

Grades are awarded on a pass/fail scale.
