

Self-declaration on the use of artificial intelligence (AI)

As a student at UiO, you must follow academic norms for honesty, integrity and transparency.

- AI can be a support, but not a replacement for your own work.
- It is not permitted to use AI to generate text that is included in exams, mandatory assignments, or other submissions.
- You are responsible for all content in your answer. All use of AI must be explained in the self-declaration.
- AI can be a supplement to understanding topics, syllabus and terminology, but you must always verify the information against reliable sources.
- Although all uses of AI must be stated, AI should not be used as a source or stated in the reference list, as AI is not a professionally secured source.
- Avoid sensitive information and copyrighted material in AI tools without approval.
- We recommend that students use tools that are approved by UiO. This will keep your data safe.
- The rules for using artificial intelligence (AI) may vary between courses and assignments. Ask your instructor if you are unsure what is allowed.

You can read more about the use of AI here:

[How to use AI as a student - University of Oslo](#)

The self-declaration for the answer/assignment in the following subject:

Course code and name:

Semester and year:

Have I used AI-based tools during the preparation of this answer/assignment? Yes / No:

If yes, please fill out the rest of the self-declaration:

I have used AI-based tools for the following in this assignment/task:

Example: Quality assurance/editing own text (spell check, reformulation), translating text, summarizing and explaining themes, syllabus, concepts and terminology, for brainstorming and as a discussion partner in writing work.

In this work, I have used the following AI-based tools:
